K30 and K50 Pro

Programmable Multicolor Indicators

- Get **seven colors** via only **three inputs**
- Improve production efficiency through enhanced visual management
- Install wherever you need indication to improve communication and productivity
- Save controller outputs and wiring
- Standardize to simplify ordering and spare parts
- Collaboration on custom models available
- Enhance troubleshooting and branding with colors
- Program units in the field with Pro Editor software (highlighted below)

K50L2RGB7Q P/N 802145
K50 Series EZ-LIGHT: K50L2 7-color
RGB Indicator; Voltage: 10-30 V dc;
Housing: Polycarbonate; IP66 IP67 IP69K;
Input: Bimodal; Colors: Multicolor;
Euro 5-pin Integral Connector ;
~~\$89.00~~ **\$75.65**

K50L2RGB7AL1Q P/N 802151
K50 Series EZ-LIGHT: K50L2 7-color
RGB Audible Indicator; Voltage: 10-30 V dc;
Housing: Polycarbonate; IP50; Tone: Loud
Steady; Input: Bimodal; Colors: Multicolor;
Euro 5-pin Integral Connector ;
~~\$119.00~~ **\$101.15**

K30L2RGB7Q P/N 802140
K30 Series EZ-LIGHT: K30L2 7-color
RGB Indicator; Voltage: 10-30 V dc;
Housing: Polycarbonate; IP66 IP67 IP69K;
Input: Bimodal; Colors: Multicolor;
Euro 5-pin Integral Connector ;
~~\$62.00~~ **\$52.70**

K30L2RGB7 P/N 802139
K30 Series EZ-LIGHT: K30L2 7-color
RGB Indicator; Voltage: 10-30 V dc;
Housing: Polycarbonate; IP66 IP67 IP69K;
Input: Bimodal; Colors: Multicolor;
2 m (6.5 ft) Cable (Buit In) ;
~~\$62.00~~ **\$52.70**

Use Banner's **Pro Editor software** and **Pro Converter Cable** (available as part of the **PRO-KIT** included with accessories on the reverse side) to create custom configurations by selecting different colors, flash patterns, and animations, and give your machine a voice.

Pro Editor software allows you to easily customize indicators with a wide variety of color and animation options. The software is compatible with K30 Pro and K50 Pro indicator models, and it allows you to program your own devices in the field without requiring IO-Link. This allows you to replace many unique indicators with a few customizable models and streamlines your supply chain.

TL70 Modular LED Tower Light Indicators

Build Your Own... Combine up to 6 segments, which come in a variety of single color, multi-color, and adjustable audible modules.

TL70 Base Modules

B-TL70-Q5 P/N 92226
Supports 1-4 Modules
Euro 5-pin Quick-Disconnect
\$37.00

B-TL70-Q8 P/N 92227
Supports 1-6 Modules
Euro 8-pin Quick-Disconnect
\$37.00

SG-TL70-A P/N 92221
Adjustable to 95 db, 4 tones
\$58.00

Big, bright tower lights come **preassembled** or as **modular segments** to customize as needed and change positions in the field. Visible at long distances, lights are gray when off to eliminate false indication.

Top-mounted Audible Segments
75 – 101 dB available, including
multitone + programmable models

TL70 Wireless Base Modules

B-TL70DXN9-8 P/N 94228
900 MHz; Supports 1-6 Modules
8 Wire 2 m (6.5 ft) Cable
\$125.00

Combined with **Sure Cross Wireless Technology**, the TL70 Wireless Tower Light Provides Reliable Remote Monitoring and Visual Status Indication

You can also save time & money...
by eliminating costly & time-consuming wire runs.

TL70 Light Modules

SG-TL70-G P/N 92211 (Green)
SG-TL70-Y P/N 92212 (Yellow)
SG-TL70-R P/N 92213 (Red)
SG-TL70-B P/N 92214 (Blue)
\$58.00

Get 14 Color & Display Options in
One Segment & Save 15%

with new
SG-TL70-RGB14
P/N 803732
(14-Color RGB)

S22 PRO

Indicators or Touch Buttons

Banner's new S22 Pro Series consists of bright, multicolor indicators and touch buttons that provide clear, easy-to-see status indication and operator guidance. They have a flush-mount design, a 22 mm housing, and an illuminated flat surface, ideal for use on machine panels, cabinets, and other industrial control applications.

S22 Pro Flush Mount Indicators

- Use up to fourteen colors to clearly indicate machine and process status
- Guide operators quickly and clearly through machine and production processes
- Apply unique colors for special statuses, assembly, branding and more

S22L2SRGB7T P/N 804241
S22L2 Series: S22L2 **7-color RGB Indicator**; Voltage: 10-30 V dc; Housing: Polycarbonate; IP67 IP69K Input: Bimodal; Colors: Multicolor 5-screw Terminal Wiring
~~\$53.00~~ **\$45.05**

S22L2SRGB7Q P/N 804240
S22L2 Series: S22L2 **7-color RGB Indicator**; Voltage: 10-30 V dc; Housing: Polycarbonate; IP67 IP69K Input: Bimodal; Colors: Multicolor Euro 5-pin Integral Connector
~~\$48.00~~ **\$40.80**

Quick Disconnect Cables

MQDC1-506 P/N 51127
5 Pin Straight Connector, 2 m (6.5 ft)
~~\$22.00~~ **\$18.70**

MQDC1-515 P/N 47812
5 Pin Straight Connector, 5 m (15 ft)
~~\$25.00~~ **\$21.25**

MQDC1-530 P/N 47814
5 Pin Straight Connector, 9 m (30 ft)
~~\$38.00~~ **\$32.30**

MQDC2S-806 P/N 70975
8 Pin Straight Connector, 2 m (6.5 ft)
~~\$36.00~~ **\$30.60**

MQDC2S-815 P/N 70976
8 Pin Straight Connector, 5 m (15 ft)
~~\$43.00~~ **\$36.55**

S22 Pro Flush-Mount Touch Buttons

- Use lighted touch buttons for two-way communication between the operator and equipment
- Give operators a bright, ergonomic button that can be activated with bare or gloved hands
- Simplify training and improve quality control procedures by using colors

S22AMTSGRHQ P/N 804266
S22 Touch Series: **2-color Touch Sensor**
Voltage: 10-30 V dc; Housing: Polycarbonate; IP67 IP69K Output: Bipolar, NO, Momentary; Colors: Green Red; Euro 5-pin Integral Connector
~~\$48.00~~ **\$40.80**

S22AMTSRGB7QP* P/N 804246
S22 Touch Series: **7-color RGB Touch Sensor**; Voltage: 10-30 V dc; Housing: Polycarbonate; IP67 IP69K Input/Output: Bimodal, NO, Momentary; Colors: Multicolor Euro 8-pin 150mm (6 in) PVC Pigtail
~~\$69.00~~ **\$58.65**

PRO-KIT P/N 805818
Pro Series Accessory Kit Includes:
Converter Cable, Splitter and Power Supply
~~\$225.00~~ **\$191.25**

ONE PART CAN BECOME ANYTHING

Download Banner's **Pro Editor software** (at no charge) and unlock the full flexibility of colors, animations and I/O logic.

* To program the 8-pin, 7-color RGB Touch Sensor (S22AMTSRGB7QP), you will need an 8 pin to 5 pin cable in addition to the PRO-KIT.
